02
Company Philosophy

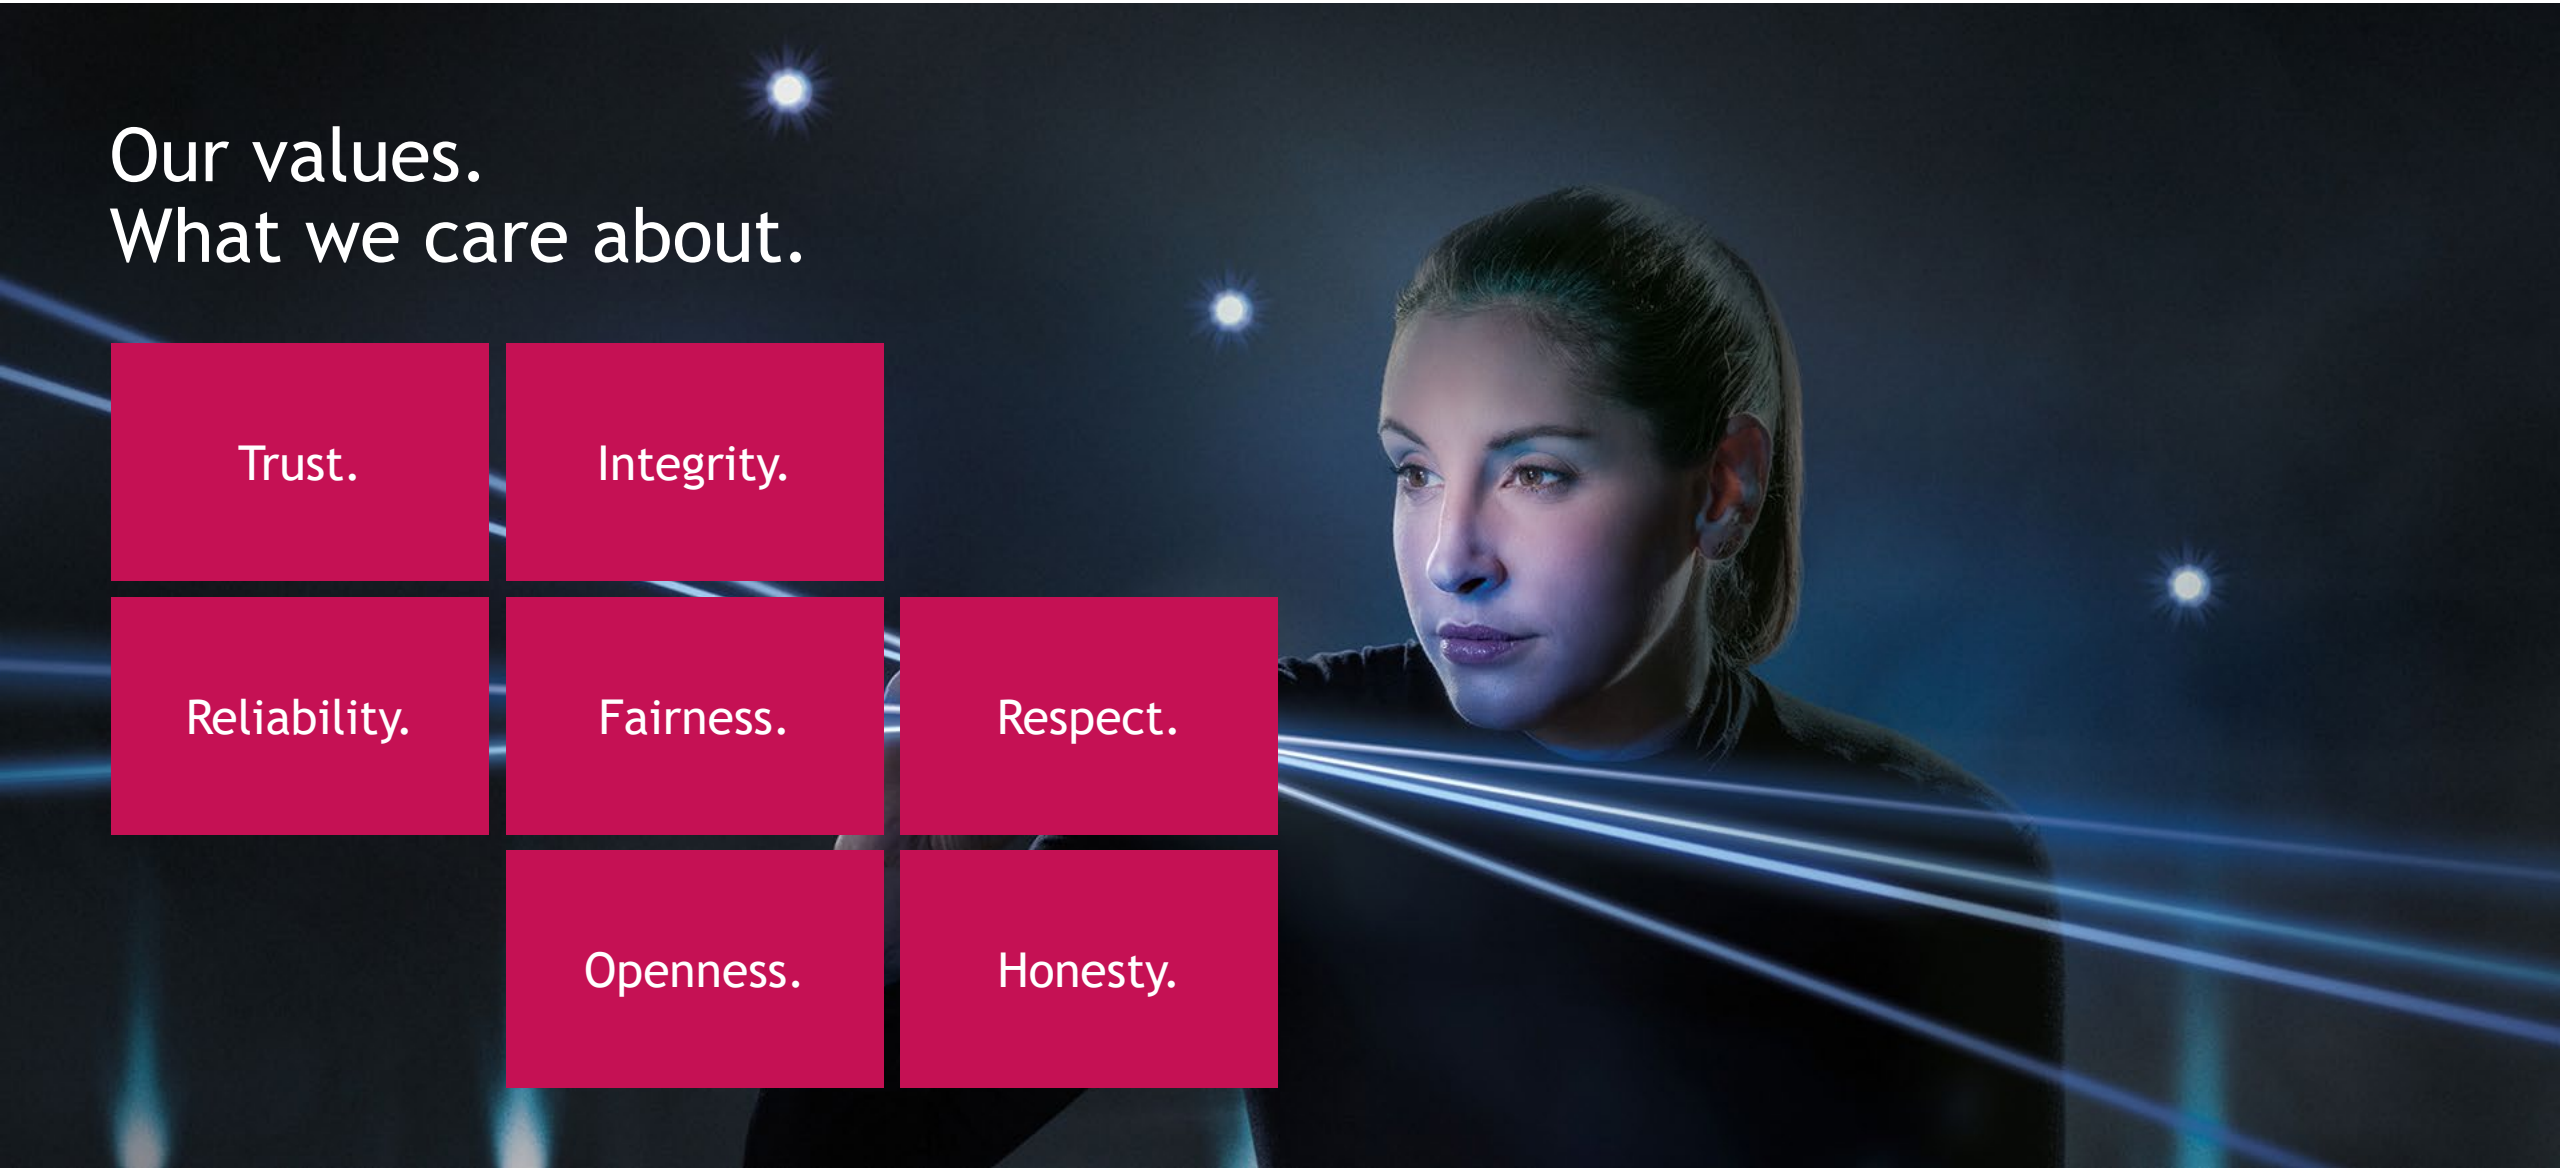
Jagenberg Group.
That‘s us.

We are a mid-sized group of companies, focused on providing solutions in the web-converting industry. Our companies have each established a strong and comprehensive portfolio of products and services in their respective fields of business:

- Machinery & Plants,
- Automation & Drives and
- Digital.

These three fields of business perfectly go together, when integrated systems are required for demanding applications. We as a Group will then combine the high performing products and services to provide a future oriented solution from one source.

Our values.
What we care about.



- Trust.
- Integrity.
- Reliability.
- Fairness.
- Respect.
- Openness.
- Honesty.

Our guidelines.
What drives our actions.

- → Ensuring financial independence.
- → Maintaining of a resilient opportunity/risk balance (stability/resilience).
- → Striving for ecological and economical sustainability.
- → Long-term and solution-oriented thinking and acting.
- → Promotion of the entrepreneurial spirit and will to create.
- → Development of employees as our most valuable resource.
- → Ensuring a high degree of actionability in decision-making and implementation.
- → Acting on our social responsibility.

Our mission statement.
Create.Future.Together.

Create.

Innovative technologies for processing web-shaped materials are the historically grown core of the Jagenberg Group and have been our focus for over 140 years. We design creative and future-oriented solutions for our customers. Our thinking is entrepreneurial and our culture mid-sized. Short decision-making processes, a high level of action competence and an agile organization enable us to take successful steps into the future quickly and decisively.

Future.

We are ready to face the dynamic changes that the future holds for all of us - be it technological progress, digitization or climate change. Based on our values, we as a Group are actively working on innovative solutions to harness these megatrends in an economically and ecologically sustainable way for our customers and ourselves.

Together.

Together we are strong! This motto characterizes the cohesion in our group. We face the future as a strong team of doers and creative minds. Together with our customers, suppliers and partners, we create the future. Through a fair and trusting exchange, we learn from each other and build long-term and reliable partnerships together.
